DEKRA D

# 2<sup>nd</sup> Supplement to the

## **EC-Type Examination Certificate**

- (2) Equipment and protective systems intended for use in potentially explosive atmospheres Directive 94/9/EC Supplement accordant with Annex III number 6
- (3) No. of EC-Type Examination Certificate: DMT 00 ATEX E 009

(4) Equipment: Pressure Transmitter type LD 301 \*\*\*\*-\*\*\*-\*

(5) Manufacturer: smar Equipamentos Industriais Ltda.

(6) Address: Av. Dr. Antonio Furlan Jr., 1028, 14170 -480 Sertaozinho-SP, Brazil

- (7) The design and construction of this equipment and any acceptable variation thereto are specified in the appendix to this supplement.
- (8) The certification body of DEKRA EXAM GmbH, notified body no. 0158 in accordance with Article 9 of the Directive 94/9/EC of the European Parliament and the Council of 23 March 1994, certifies that this equipment has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment and protective systems intended for use in potentially explosive atmospheres, given in Annex II to the Directive. The examination and test results are recorded in the Test and Assessment Report BVS PP 00.2009 EG.
- (9) The Essential Health and Safety Requirements are assured by compliance with:

EN 60079-0:2012+A11:2013 General requirements EN 60079-11:2012 Intrinsic safety "i"

EN 60079-26:2007 Equipment with equipment protection level (EPL) Ga

- (10) If the sign "X" is placed after the certificate number, it indicates that the equipment is subject to special conditions for safe use specified in the appendix to this certificate.
- (11) This supplement to the EC-Type Examination Certificate relates only to the design, examination and tests of the specified equipment in accordance to Directive 94/9/EC.

  Further requirements of the Directive apply to the manufacturing process and supply of this equipment. These are not covered by this certificate.
- (12) The marking of the equipment shall include the following:

- (15) 15.1 Subject and type

Pressure Transmitter type LD 301 \*\*\*\*-\*\*\*-\*

Type code: no change.

#### 15.2 Description

The status of applied standards in the certificate has been subjected to update as listed in item (9).

Previous electronic assemblies of the pressure transmitter may be replaced optionally by versions subjected to minor change and in addition, may be enhanced with a new variant of Main Board and Sensor Board.

Safety-relevant constructive details and parameters remain unchanged,

#### 15.3 Parameters

15.3.1 Supply- and signal-circuit

intended for connection to an intrinsically safe 4 to 20 mA current loop

### EC-Type Examination Certificate

#### **DMT 00 ATEX E 009**

#### (15) 15.1 Designation and Type.

(14)

#### 15.2 Description

The Pressure Transmitter type LD 301 \*\*\*\*-\*\*\*\*, is an intrinsically safe supplied pressure measuring device, designated for continuous measuring of gas- or liquid-media in hazardous areas requiring category 1/2G, 2G or M1 apparatus.

The Pressure Transmitter comprises a tubular light alloy or stainless steel enclosure, closed by means of screwed caps, which contain printed circuit boards with electronic components.

The wall of the enclosure is flanged to a cast steel enclosure, which comprises a mechanical pressure gauge and printed circuit boards with electronic components, embedded in sealing compound.

The light alloy enclosure shall be installed in hazardous areas requiring category 2G equipment.

The stainless steel enclosure shall be installed in hazardous areas requiring category 2G or M1 equipment.

The process connections shall be installed in the separation wall (wall of a vessel / pipe) separating areas from each other which require category 1G or category 2G equipment.

#### 15.3 Electrical, mechanical and thermal parameters

#### 15.3.1 supply- and signal-circuit

for the connection to an intrinsically safe 4 to 20 mA current loop

| voltage                        | Ui      | DC | 28 V       |
|--------------------------------|---------|----|------------|
| current                        | Ii      |    | 93 mA      |
| effective internal capacitance | $C_{i}$ | <  | 5 nF       |
| effective internal inductance  | Li      |    | negligible |

15.3.2 Maximum permissible power for certified intrinsically safe supply- and signal-circuits as a function of ambient temperature and temperature class

| ambient-<br>temperature<br>T <sub>a</sub> | temperature-<br>class<br>T | power<br>P <sub>i</sub> |
|---|----------------------------|-------------------------|
| 85°C                                      | 4                          | 700 mW                  |
| 50°C                                      | 5                          | 700 mW                  |
| 55°C                                      | 5                          | 650 mW                  |
| 60°C                                      | 5                          | 575 mW                  |
| 65°C                                      | 5                          | 500 mW                  |
| 70°C                                      | 5                          | 425 mW                  |
| 40°C                                      | 6                          | 575 mW                  |

15.3.3 For the Pressure Transmitter the following ambient temperature range apply:

type LD 301\*\*\*\*-\*\*0\*-\*\*\*-\* -40°C 
$$\leq$$
 T  $_a$   $\leq$  +85°C type LD 301\*\*\*\*-\*\*1\*-\*\*\*-\* -10°C  $\leq$  T  $_a$   $\leq$  +60°C

## 1st Supplement

(Supplement in accordance with Directive 94/9/EC Annex III number 6)

### to the EC-Type Examination Certificate **DMT 00 ATEX E 009**

Pressure Transmitter Type LD 301\*\*\*\*\_\*\*\*\_\* Equipment:

smar Equipamentos Industriais Ltda. Manufacturer:

14170-480 Sertaozinho-SP (Brazil) Address:

#### Description

The pressure transmitter can be modified according to the descriptive documents as mentioned in the pertinent test and assessment report

The Essential Health and Safety Requirements of the modified equipment are assured by compliance with:

General requirements EN 60079-0:2006 EN 60079-11:2007 Intrinsic safety 'i'

EN 60079-26:2004 Equipment Group II Category 1G Equipment Group I Category M1 EN 50303:2000

The marking of the equipment shall include the following:

#### Parameters

Supply and signal circuit designed for the connection to an intrinsically safe 4 to 20 mA current loop

| v.v.deene                      | Ui             | DC    | 28    | V   |
|--------------------------------|----------------|-------|-------|-----|
| Voltage                        | T              |       | 93    | mA  |
| Current                        | 1 <sub>1</sub> |       | 5     | nF  |
| Effective internal capacitance | $C_{i}$        | > ''  | 1.1.  | 111 |
| Effective internal inductance  | $L_{i}$        | negli | gible |     |

2. Maximum permissible power for certified intrinsically safe supply and signal circuits as a function of ambient temperature and temperature class

| Max. ambient-<br>temperature | Temperature-<br>class | Power   |
|------------------------------|-----------------------|---------|
| $T_a$                        |                       | $P_{i}$ |
| 85 °C                        | T4                    | 700 mW  |
| 75 °C                        | T4                    | 760 mW  |
| 44 °C                        | T5                    | 760 mW  |
| 50 °C                        | T5                    | 700 mW  |
| 55 °C                        | T5                    | 650 mW  |
| 60 °C                        | T5                    | 575 mW  |
| 65 °C                        | T5                    | 500 mW  |
| 70 °C                        | T5                    | 425 mW  |
| 40 °C                        | Т6                    | 575 mW  |

3. With regard to explosion protection requirements the Pressure-Transmitter is suitable for operation in the following ambient temperature range:

- 40 °C ≤  $T_a$  ≤ + 85 °C
